

Things I've Learned From My Children

1. A king size waterbed holds enough water to fill a 2000 sq. foot house four inches deep.
2. If you spray hair spray on dust bunnies and run over them with roller blades, they can ignite.
3. A 3 year old's voice is louder than 200 adults' in a crowded restaurant.

4. If you hook a dog leash over a ceiling fan, the motor is not strong enough to rotate a 42 pound boy wearing Batman underwear and a superman cape. It is strong enough, however, to spread paint on all four walls of a 20 by 20 foot room.

5. When using the ceiling fan as a baseball bat, you have to throw the ball up a few times before you get a hit. A ceiling fan can hit a baseball a long way.

6. The glass in windows (even double pane) doesn't stop a baseball hit by a ceiling fan.

7. When you hear the toilet flush and the words "Uh-oh," it's already too late.

8. Brake fluid mixed with Clorox makes smoke, and lots of it.

9. A six year old can start a fire with a flint rock even though a 36-year-old man says they can only do it in the movies. A magnifying glass can start a fire even on an overcast day.

10. Certain Legos will pass through the digestive tract of a four year old.

11. "Play-Doh" and "microwave" should never be used in the same sentence.
12. Super glue is forever.
13. No matter how much Jell-O you put in a swimming pool you still can't walk on water.
14. Pool filters do not like Jell-O.
15. VCRs do not eject PB&J sandwiches even though TV commercials show they do.

16. Garbage bags do not make good parachutes.
17. Marbles in gas tanks make lots of noise in a moving car.
18. You probably do not want to know what that odor is.

19. Always look in the oven before you turn it on. Plastic toys do not like ovens.

20. The fire department in Austin, TX has a 5 minute response time.

21. The spin cycle on the washing machine does not make earth worms dizzy. It will, however, make cats dizzy.

22. Cats throw up twice their body weight when dizzy.
